Background: Aperam a solid performer even in challenging times

“Since day one, we have focused on increasing our competitiveness so as to perform successfully in any environment. Over the past 10 years we realised more than €730 million cost reductions through our internal program the Leadership Journey® and we have invested €1.3 billion in our plants. We also strengthened our balance sheet, and our net financial debt is today less than 1 tenth of the level when Aperam was created. We are proud to serve today the most innovative and demanding solutions to our customers thanks to our integrated distribution and R&D.” The evolution of key financial metrics is highlighted below:

Solid operating performance despite market headwind

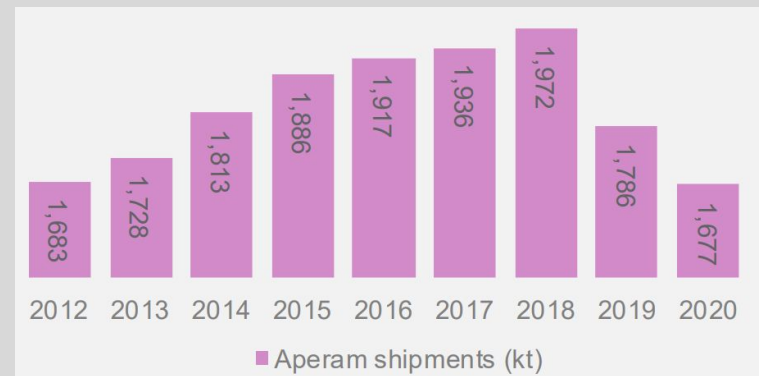

Transformation yields a positive net income even in a recessionary market environment

A strong balance sheet is corporate policy

2020 volumes reflect soft real demand in both EU and Brazil and trade war induced imports

Leadership Team Performance Share Unit Plan

The Leadership Team Performance Share Unit Plan

- The Leadership Team Performance Share Unit Plan (the “LT PSU Plan”) is designed to enhance the long-term performance of the Company and align the members of our Leadership Team (“LT”) to the Company’s objectives.
- The LT PSU Plan complements Aperam’s existing program of annual performance-related bonuses which is the Company’s reward system for short-term performance and achievements. The short term incentives are described in detail in the 2020 Annual Report pages 87 to 88 (Link to 2020 Annual Report: [Link](#))
- The main objective of the LT PSU Plan is to be an effective performance-enhancing scheme for LT members based on the achievement of Aperam’s strategy aimed at creating measurable long-term shareholder value.

The Remuneration, Nomination and Corporate Governance Committee

- The allocation of PSUs to eligible Leadership Team members is reviewed by the Remuneration, Nomination and Corporate Governance Committee of the Board of Directors, which is comprised of three independent directors, and which makes a recommendation to the Board of Directors. The vesting criteria of the PSUs are also monitored by the Remuneration, Nomination and Corporate Governance Committee.

Reporting of meeting the vesting criteria

- The Company is reporting in its Annual Reports on the results of meeting the vesting criteria as well as on the applicable peer group.
- The results of the plans 2015 to 2017* are summarized below with greater details available in the Company’s Annual Reports:
 - Plan 2015: Vesting 126% (plan completed in 2018)
 - Plan 2016: Vesting 0% (plan completed in 2019)
 - Plan 2017: Vesting 150% (plan completed in 2020)

Below LT level

- As part of the resolution submitted to shareholder approval, the shareholders are also requested to adopt any rules or measures to implement the LT PSU Plan and other grants below the level of the LT Members that the Board of Directors may at its discretion consider appropriate, while fully remaining under the global 2021 Cap of 220,000 shares (historical level).

** For the PSU Plans under the May 9, 2018, May 7 2019, and May 5, 2020 shareholder authorisations no vesting has yet been reached considering that the LT PSU Plans provide for cliff vesting on the third year anniversary of the grant date subject to the fulfilment of cumulative performance criteria over a three-year period, under the condition that the relevant LT member continues to be actively employed by the Aperam group on that date.*

Technical Highlights

Leadership Team Performance Share Unit Plan in detail

Only PSUs for Leadership Team members based on clear and identifiable performance criteria :

- **TSR vs. Index based:** 50% of the criteria to be met is based on the development of Total Shareholder Return (“TSR”) for Aperam compared to two representative indexes (25% weight: SBF 120 index ; 25% weight DAX index) over a three year period
- **EPS and TSR vs. Peer Group based:** 50% of the criteria to be met is based on the development of
 - Earnings Per Share (“EPS”) for 25% compared to a peer group over a three year period.
 - Total Shareholder Return (“TSR”) for 25% compared to a peer group over a three year period.

The peer group is composed of 6 companies, with i) 2 representatives of the most direct stainless steel players and ii) 4 representatives of the general steel industry. The EPS and TSR developments compared to the peer group are measured separately against the most direct stainless steel players and against the general industry players.

- CEO: 80% of base salary ; Other Leadership Team members : 50% of base salary

Vesting:

- Cliff vesting after 3 years.

Potential Dilution

Vesting Retirement:
